Volume contents

Volume 3, Number 1, 1992

Review

1 **Species differences in the metabolism and disposition of antiviral nucleoside analogues: 1. Acyclovir**
P. de Miranda & S. S. Good

9 **Anionic compounds as inhibitors of African swine fever virus replication in Vero cells**
D. García-Villalón & C. Gil-Fernández

15 **Relationship between conformation and antiviral activity-II. 5-Methoxymethyl-2′-deoxycytidine and 5-methoxymethyl-N^4-methyl-2′-deoxycytidine**
V. S. Gupta, P. J. Aduma, Z. Jia, A. L. Stuart, V. P. S. Kumar, G. Tourigny & L. T. J. Delbaere

23 **Differential activity of polyanionic compounds and castanospermine against HIV replication and HIV-induced syncytium formation depending on virus strain and cell type**
D. Schols, R. Pauwels, M. Witvrouw, J. Desmyter & E. De Clercq

31 **Inhibition of enveloped RNA virus formation by peptides corresponding to glycoprotein sequences**
N. C. Collier, S. P. Adams, H. Weingarten & M. J. Schlesinger

37 **Effects of penciclovir and famciclovir in a murine model of encephalitis induced by intranasal inoculation of herpes simplex virus type 1**
S. E. Goldthorpe, M. R. Boyd & H. J. Field

49 **Inhibition of gp120 binding to the CD4 by dyes: mechanism of effect and contribution to anti-HIV activity**
M. R. Kozlowski & A. Watson

55 **Rapid prescreening for antiviral agents against HIV-1 based on their inhibitory activity in site-directed immunoassays. II. Porphyrins reacting with the V3 loop of gp120**
A. R. Neurath, N. Strick, P. Haberfield & S. Jiang

Volume 3, Number 2, 1992

Review

65 **Species differences in the metabolism and disposition of antiviral nucleoside analogues: 2. Zidovudine**
S. S. Good & P. de Miranda

79 **Synthesis and biological evaluation of haloalkyl phosphate triester derivatives of araA and araC**
C. McGuigan, B. C. N. M. Jones, S. M. Tollerfield & P. A. Riley

85 **Activity of penciclovir in combination with azidothymidine, ganciclovir, acyclovir, foscarnet and human interferons against herpes simplex virus replication in cell culture**
D. Sutton, J. Taylor, T. H. Bacon & M. R. Boyd

95 **The antiviral activity of tetrachloro decaoxide against herpes simplex virus type 1 and the virucidal effect of the drug**
D. J. Dargan & J. H. Subak-Sharpe

107 **Comparison of antiviral effects of zidovudine phosphoramidate and phosphorodiamidate derivatives against HIV and ULV *in vitro***
D. Kinchington, J. J. Harvey, T. J. O'Connor, B. C. N. M. Jones, K. G. Devine, D. Taylor-Robinson, D. J. Jeffries & C. McGuigan

113 **HIV-1 integrase: high-level production and screening assay for the endonucleolytic activity**
A. Billich, M. Schauer, S. Frank, B. Rosenwirth & A. Billich

Short communication

121 **Stability of carbovir, a potent inhibitor of HIV, to phosphorolysis by human purine nucleoside phosphorylase**
C. L. P. Marr & C. R. Penn

Erratum

125 **Naphthalenesulphonic acid derivatives as potential anti-HIV-1 agents. Chemistry, biology and molecular modelling of their inhibition of reverse transcriptase**
P. Mohan, A. J. Hopfinger & M. Baba

Volume 3, Number 3, 1992

Review

127 **Human T-cell lymphotropic viruses: Review and prospects for antiviral therapy**
T. J. Palker

141 **5′-ester prodrugs of the varicella-zoster antiviral agent, 6-methoxypurine arabinoside**
A. R. Moorman, S. D. Chamberlain, L. A. Jones, P. de Miranda, D. J. Reynolds, M. E. Peoples & A. Krenitsky

147 **Inhibition of the binding of HIV rgp 120 to CD by dyes**
J. L. Weaver, P. Scott Pine, R. Anand, S. Bell & Aszalos

153 **The enzymatic synthesis and anti-HIV activit of 9-β-D-2′-deoxy and 9-β-D-2′,3′-dideoxynucleosides of 2-aminopurine**
N. Hicks, D. W. Hutchinson, N. Mahmood & A. Hay

157 **Amino acid ester prodrugs of acyclovir**
L. M. Beauchamp, G. F. Orr, P. de Miranda, T. Burnette & T. A. Krenitsky

165 **Metabolism of 3′-azido-3′-deoxythymidine 3′-fluoro-3′-deoxythymidine in combinatio human immunodeficiency virus infected lymphoblastoid cells**
S. Cox

171 **Inhibitory effect of pyridobenzoazoles on orthomyxo- and paramyxovirus replication *in vitro***
S. Shigeta, S. Mori, M. Baba, M. Hosoya, N. Mochizuki, T. Chiba & E. De Clercq

179 **Purine arabinosides as inhibitors of human haemopoietic progenitor cells**
D. R. Averett, H. N. Steinberg, G. W. Koszalka, T. Spector & T. A. Krenitsky

183 **Synergistic inhibition of human *immunodeficiency virus type 1 in vitro* by interferon alpha and coumermycin A1**
G. Tachedjian, D. Tyssen, D. Jardine, S. Locarnini & C. Birch

Volume 3, Number 4, 1992

189 **Three new potent HIV-1 inhibitors from myxobacteria**
E. Jurkiewicz, R. Jansen, B. Kunze, W. Trowitzsch-Kienast, E. Forche, H. Reichenbach, G. Höfle & G. Hunsmann

195 **Synthesis and evaluation of anti-rhinovirus 1B activity of oxazolinyl-isoflavans and –3(2H)-isoflavenes**
N. Desideri, C. Conti, I. Sestili, P. Tomao, M. L. Stein & N. Orsi

203 **Determination of IC_{50} values and the mechanism of action of HIV-1 RT inhibitors, by the use of carrier bound template-primer, template, or primer, with ^{125}I-IUTP as substrate**
J. S. Gronowitz, J. Lennerstrand, A. Petterson, M. Neumüller, M. Johansson & C. F. R. Källander

215 **Poly(hydroxy)carboxylates as selective inhibitors of cytomegalovirus and herpes simplex virus replication**
J. Neyts, R. Snoeck, P. Wutzler, M. Cushman, R. Klöcking, B. Helbig, P. Wang & E. De Clercq

223 **Polymerase domains of human immunodeficiency virus type 1 reverse transcriptase and herpes simplex virus type 1 DNA polymerase: their predicted three-dimensional structures and some putative functions in comparison with *E. coli* DNA polymerase I. A critical survey**
B. Lindborg

Short communication

243 **Interaction of 5-methoxymethyl-2′-deoxyuridine triphosphate with DNA polymerases: effects of the 5-substituent and comparison with the deoxycytidine derivative**
P. J. Aduma, S. V. Gupta & A. L. Stuart

Volume 3, Number 5, 1992

Review

249 **Prospects for antiviral chemotherapy in veterinary medicine: 1. Feline virus diseases**
E. A. Rollinson

263 **1-(Ethoxymethyl)-6-(phenylselenenyl)pyrimidines with activity against human immunodeficiency virus types 1 and 2**
N. M. Goudgaon, A. McMillan and R. F. Schinazi

267 **Influence of the infectious dose of simian immunodeficiency virus on the acute infection in cynomolgus monkeys and on the effect of treatment with 3′-fluorothymidine**
D. Böttiger, L. Vrang and B. Öberg

273 **Naturally occurring pyrrolizidines: inhibition of α-glucosidase 1 and anti-HIV activity of one stereoisomer**
D. L. Taylor, R. Nash, L. E. Fellows, M. S. Kang and A. S. Tyms

279 **Amino- and hydroxytetraphenylporphyrins with activity against the human *immunodeficiency virus***
D. W. Dixon, M. S. Kim, V. Kumar, G. Obara, L. G. Marzilli and R. F. Schinazi

283 **Inhibition of Moloney murine leukaemia virus *transcription by a phospholipase-C inhibitor* affecting *trans*-acting factors**
L. Music and G. Sauer

293 **5-Alkynyl pyrimidine nucleosides as potent selective inhibitors of varicella-zoster virus**
S. G. Rahim, N. Trevidi, J. Selway, G. Darby, P. Collins, K. L. Powell and D. J. M. Purifoy

299 ***In vitro* toxicity of 2′,3′-dideoxy-3′-thiacytidine (BCH189/3TC), a new synthetic anti-HIV-1 nucleoside**
G. Lisignoli, A. Facchini, L. Cattini, M. C. Monaco, A. Degrassi and E. Mariani

305 **Antiviral effect of interferon therapy for patients with chronic hepatitis C**
J. Hayashi, K. Nakashima, A. Noguchi, M. Hirata, K. Akazawa and S. Kashiwagi

Volume 3, Number 6, 1992

Review

311 **Prospects for antiviral chemotherapy in veterinary medicine: 2. Avian, fish, canine, porcine, bovine and equine virus diseases**
E. A. Rollinson

327 **Ganciclovir treatment of murine cytomegalovirus infection in mice immunosuppressed by prior infection with friend leukaemia virus**
D. F. Smee, A. Pease, R. A. Burger, J. H. Huffman, J. D. Morrey, K. M. Okleberry, R. L. Noble and R. W. Sidwell

335 **Prophylactic efficacy and bone toxicity associated with phosphonoformate therapy against retrovirus infection**
C. L. Swenson, P. J. Polas, S. E. Weisbrode, L. A. Nagode, G. J. Kociba, K. A. Hayes and L. E. Mathes

345 **Anti-human immunodeficiency virus (HIV) activity of the novel antiviral antibiotic quartomicins which enhance inhibitory effect of 3′-azido-2′,3′-dideoxythymidine (AZT) *in vitro***
A. Tanabe-Tochikura, H. Nakashima, T. Murakami, O. Tenmyo, T. Oki and N. Yamamoto

351 **New polyacetal polysulphate active against human immunodeficiency virus and other enveloped viruses**
M. Witvrouw, D. Schols, G. Andrei, R. Snoeck, S. Ikeda, R. Pauwels, A. Van Schepdael, J. Arnout, P. Claes, J. Desmyter and E. De Clercq

361 ***In vitro* antiviral activity of ribavirin against picornaviruses**
D. O. Andersen, B. K. Murray, R. K. Robins and J. A. North

371 **2′-Ester prodrugs of the varicella-zoster *antiviral agent, 6-methoxypurine arabinoside***
S. D. Chamberlain, A. R. Moorman, L. A. Jones, P. de Miranda, D. J. Reynolds, G. W. Koszalka and T. A. Krenitsky
